From ASM's CSIT 17 student attempt exam out of which 3 student willing to dedicated for this program. AWS-Rida jamdar, Ganesh Shejule and Full stack Dhanshree Phuge.

Full stack batch trainer is kamatchi mam from Chennai and batch coordinator is the nmozhi mam from Chennai.

During this Session student were studied various backend and front end technology like core java, advanced java, html, CSS, MySQL bootstrap, spring boot.

They are provided the codecademy credentials to each student to complete the course on that and get a certificate from that platform

Also they give weekly assignments to the students on different topics, using that assignment students are going to the practices for that code, queries and problem

After completion of core java, front end, advance java and SQL they arrange the 3 mock interview on per topic.

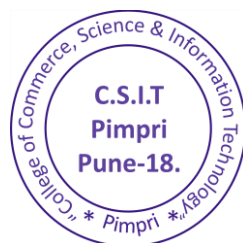

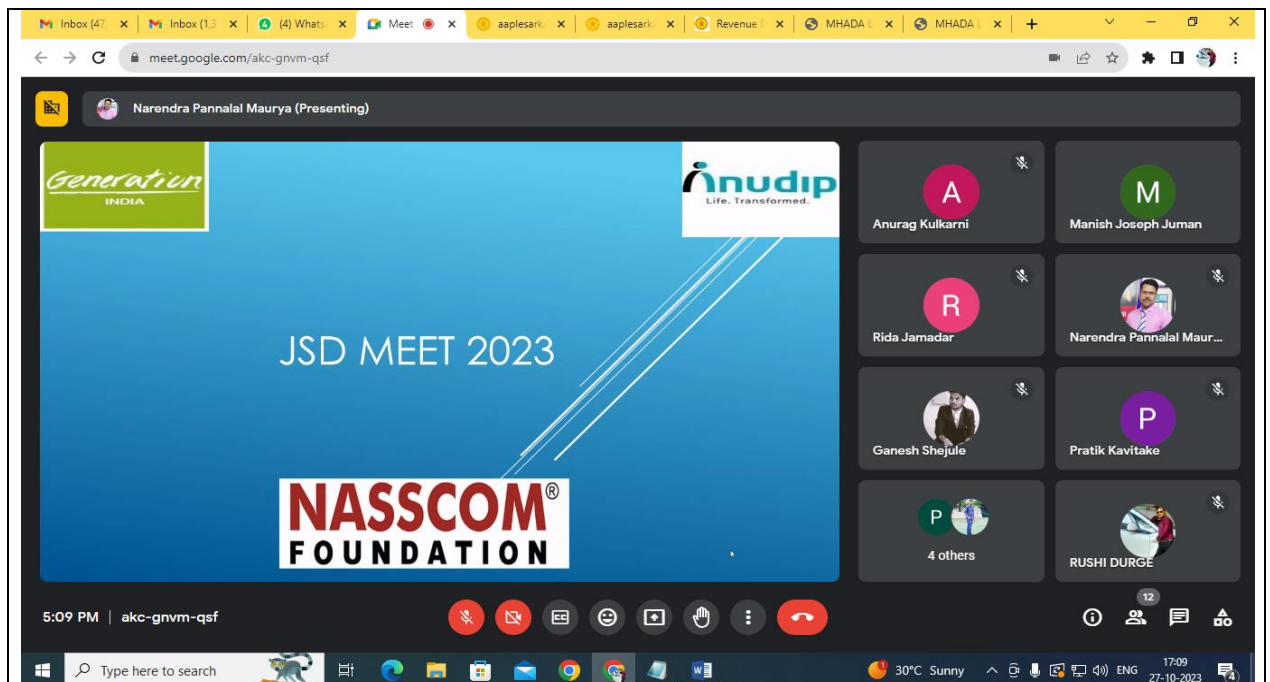

Shubham sir, and Kavita mam they always take our mock interview, after completion of interview they are given to the feedback to each and every student about their performance, self-confidence and which topic they have to prepare strongly in the interview .

Also they have provided aln.org platform using that we can solve the MCQ based questions and speaking and writing the ichtas problems

In the soft skills lecture they are conducting the group activity program like group discussion, debate etc.

At the end, they told every student please choose one partner with you and choose one project topic and discuss on that, then submit your project topic. Student got prepared by trainer Sakshi Bokade for AWS cloud practitioner exam. Daily 10-4 live sessions. The topics included were Linux basics, Database, Cloud Computing, AWS concepts.

The Course was organized under the guidance of Dr. Lalit Kanore (Principal), Program Co-ordinator Mr Manish Jumman, Komal Jain (Anudip Foundation). Course was co-ordinated by Rushi Durge.
